LOCAL NEWS ITEMS

Miss Kathleen Holmes has been a visitor with her sister, Mrs. Gaetz of Raymond.

Although the limbs on the trees are getting bare, there are a few other limbs not quite so bare as they have been.

A Packing Plant was soon to be realized through the Co-op, said Mr. Hanson, one at Edmonton and possibly also at Calgary. Travelling clinics were much approved by the speaker, who thought that it should be extended to adults. Co-operative buying was another of his subjects.

Mr. and Mrs. Robert Alexandra spent Thanksgiving in Vulcan with Mr. and Mrs. A. Vaughn, the parents of Mrs. Alexandra.

This is the time of year when all the farmers in Ontario would like the big plowing match done on their farms.

Three Royalty wells are drilling in the limestone. These are Nos. 16, 23 and 21. Royalty 19 is also in limestone.

Mr. and Mrs. E. L. Leppard of Morley were recent visitors at the home of the latter's parents, Mr. and Mrs. Norman Holmes.

A dance will be held at Alston community hall on Friday, November 15; music by the Melody Five. Admission \$1.00 per couple; lunch served in the basement.

Mr. and Mrs. A. G. Dickinson returned last week from an enjoyable trip to New Brunswick. A niece accompanied them on the return journey and will make her home in Vulcan.

L. C. McFarland of Vulcan, in partnership with Geo. Morrison, formerly of the Kootenay garage, Creston, have just purchased Creston Motors garage and service station at Barton Avenue from Rose & Timmons, and have taken possession. Mr. McFarland intends to move his family to Creston before the end of the month.

The Church of Christ entertainment, given last week, proved very successful. The items which were given by local talent were numerous and well rendered. These were a number of selections, both vocal and instrumental, also many readings. One very humorous dialogue caused a great deal of laughter. Later a play "No girls admitted" completed the concert. A collection was taken and the proceeds amounting to thirty-five dollars, was sent to the Junior Red Cross in Calgary.

On a cold morning—prove REGAL GASOLINE. Advt.

K. R. McLean, of McLean & Anderson, Sight Specialists, 224 8th Avenue West, Calgary, visits the King Drug Store Saturday, November 23. Make appointments at Drug Store.

The Catholic Women's League of Brant desires to thank all who by so liberally purchasing tickets, contributed to the success of the recent bazaar and drawing. Miss Margaret McKay of Brant was the lucky winner of the Hope Chest.

The Royal is no more. Most of the building being leased for other business, and the furniture moved and packed in the garage and the apartment in rear north end. Everything will be sold by private sale commencing Saturday this week. No more than two persons admitted at once.

CURLING MEETING

The Vulcan Curling Club is holding the annual meeting in the Municipal Office on Friday evening at 8 o'clock. The main business will be the election of officers and skippers for the ensuing year. All members of the club are requested to be present and a cordial invitation is extended to anyone who desires to curl this year. The secretary or any member of the club will be glad to have the names of any new members as soon as possible so that they may be included in the lists from which the personnel of the rinks is selected.

LOCAL NEWS ITEMS

Erma and Russel Clive spent Sunday with friends in High River.

Rev. J. N. Brunton will conduct the regular services at the United Church next Sunday morning and evening and at Mayview at 2 and Red Cross at 3.30 p.m. Everybody welcome.

The Vets annual dance was held last Monday, the 11th of November, in the Odd Fellows' hall. Music was furnished by a local orchestra, the Melody Five. The hall was crowded by people of Vulcan and district; Milo, Lomond and Champion were well represented. Supper was served at midnight by the Vets and their wives. Everyone voted a wonderful time. The proceeds amounted to one hundred and sixteen dollars.

U. F. A. MEETING IN I. O. O. F. HALL

E. J. Garland, M.P. for Bow River was the speaker at a meeting in the I. O. O. F. hall on Wednesday of last week; with Mr. Garland were Mr. H. Hanson, director and Mr. H. W. Leonard, secretary of the constituency association; about sixty were present. Mayor Butchart presided.

Mr. Leonard, the first speaker dwelt on the political aspect of the organization; that their dues were needed to help defray the cost of the election expenses, that in all probability would take place next year. \$1,000 was the cost and locals should keep their membership up, if it were only for the benefits derived, as according to the Crown Nest agreement, the saving on shipping of one car of grain would pay the dues for thirty years.

A Packing Plant was soon to be realized through the Co-op, said Mr. Hanson, one at Edmonton and possibly also at Calgary. Travelling clinics were much approved by the speaker, who thought that it should be extended to adults. Co-operative buying was another of his subjects.

Mayor Butchart, chairman, then introduced Mr. Garland, who gave a very comprehensive review of the last session, congratulating the ladies in his opening remarks, on the decision handed down that a woman was a person. Divorce bills occupied too much valuable time of the house and due to the efforts of Mr. Woodsworth, the courts will have charge of divorce cases in Ontario. Personal domicile was another point gained as regard women in divorce cases. The highways grant was dealt with and it was brought forth that the Federal government wanted to include this in the subsidy along with the Natural Resources which was almost completed except on one point that was not yet settled. Due to the Grain Commission and the appointment of a new Board a great improvement had been made in the grading and handling of wheat to the benefit of the farmers.

The two clauses in the Kellogg-Briand Peace Pact were read by Mr. Garland who spoke very eloquently on this subject; that the minds of the people must be turned towards peace and quoted figures to show how much it was costing the government to be prepared. Credit was given to all those who had taken part toward the peace movement and to the original drafter of the two clauses in the Peace Pact, Professor Shotwell.

CHURCH OF CHRIST NOTES

All regular services at the Church of Christ as usual. A special invitation is extended to everybody to come out and hear Lorne Cole, the boy preacher, just sixteen years of age. Lorne Cole is the son of the minister of the First Christian Church of Calgary. He will deliver both morning and evening messages. The work for completing a full basement has been started and we look forward to the time when we will have this additional room for bible school and other work.

Mayor Butchart Addresses Lethbridge Board of Trade

(Lethbridge Herald)

Co-operation between urban and rural people in solving the problems of Southern Alberta was the clarion call of Mayor W. E. Butchart of Vulcan, who was the guest speaker at the regular weekly luncheon of the Lethbridge Board of Trade last week.

Mayor Butchart declared that one of the finest things which any community can foster is the spirit of goodwill between the people of the community and the surrounding country. Vulcan, he said, had striven for this and he believed there was no town in Alberta enjoying more friendly relations with the people in its trading territory, not only in a commercial way, but in a social way as well.

The visit of the Vulcan mayor is part of the Lethbridge Board of Trade campaign to hear community leaders on the problems and aspirations of the various communities of Southern Alberta, and Mayor Butchart proved himself to be an able exponent of the "Wheat Belt." He declared in the course of his address that Vulcan was one of the largest primary wheat shipping points in the world, where crops are consistently good, and the district is peopled by farmers who are forward looking and ready to bear their share of the burden. The crops in the Vulcan district this year, he said, were somewhat lighter than last, averaging from 10 to 25 bushels per acre, but they were of high quality and were harvested at a minimum of expense, with the result that people are paying off their old debts and putting themselves in good position to carry on their operations.

Vulcan, which in 1915, when the speaker moved there after living for a number of years in the Magrath-Raymond-Cardston area, had a population of nearly 1,300 and is endeavoring to serve its rich territory.

In this effort, good schools have been provided which holds a high place in the educational scheme of the province. Some time ago a municipal hospital was built by the town and the surrounding district and this has proven a Godsend to the people. "The building of this hospital is one of the finest things I have had anything to do with during my public life," declared the mayor. The recent completion and dedication of the Canadian Legion community hall was another instance of Vulcan's desire to serve its territory. The hall was built at a cost of \$35,000 and is a credit to the community.

One of the problems facing the town of Vulcan today is the question of the hawk and peddler who comes into the community when times are good and tries to skim off the cream of the business without paying taxes. The business men of the town pay half the taxes to keep the community progressing and he thought it eminently unfair that the wandering merchant should be allowed to escape. Vulcan was asking the provincial government to remedy this situation. It is likely that representations will be made to the government prior to the coming session, and Mayor Butchart asked that the Lethbridge Board support Vulcan in its stand on the matter.

In closing, Mayor Butchart thanked the Lethbridge Board of Trade for the honor done in inviting him to speak. He appreciated the honor on behalf of his fellow citizens and hoped that Lethbridge would be able to send speakers to Vulcan at some later date. President Baillie, in thanking Mr. Butchart for his address, assured him that Lethbridge was always ready to support Vulcan in advancing the prosperity of Southern Alberta.

REID HILL SCHOOL FAIR

A school fair meeting was called on October 30, that everyone interested in the Reid Hill school fair might attend. The business of the 1929 fair was concluded as follows:

Auditor's report read and approved; secretary's report read and approved.

Nurses letter on health matters requesting the sanction of prizes for this work, discussed.

Resolution—That we recommend the new executive to consider the health question and consider the same. Moved by Cecil Smith, seconded by Pete Bowie.

Any school in the fair but outside the Marquis Municipality, and therefore not under the supervision of the nurse would be allowed to partake in the competition, Miss Davidson volunteering to make one visit to the school for inspection regarding prizes.

The election of new officers for 1930 are as follows: Mae L. Todd re-elected as secretary-treasurer; Alex. McIntyre re-elected as president; P. Bowie elected as vice-president; G. Walker elected as first vice-president.

The secretary was to notify all districts interested in the fair to send a representative to a meeting to be held at the Reid Hill community hall on November 14, to discuss and outline the new program for 1930.

ST. ALDHELMS SUNDAY SCHOOL

Last Friday evening was the occasion of a very enjoyable function in the basement of St. Aldhelm's church when teachers and pupils gathered together to celebrate the tenth anniversary of the school.

Delicious refreshments were served and much enjoyed.

The scholars made an acceptable presentation to Mrs. Daines who has been a popular teacher during the whole period of ten years.

A presentation was also made to Alma Roas who has attended the school since its inception.

A really enjoyable evening was concluded by a varied program of much merit, presented by scholars and friends.

ITEMS PICKED UP AROUND THE CLUB

Well, another Armistice Day has come and gone and the ranks of the boys are getting thinner and thinner every year. When we look back on the war years and the fun we had, it's good, but then at other times it's not so good. We can't do anything for the boys who are gone, but we sure can keep on helping those who are still with us.

Returns are not yet to hand but we are certain that the Poppy Day campaign went over bigger than ever this year, and we know that Vulcan is doing its share—thanks to the whole-hearted co-operation of the members of the W. I.

A few of the boys went to Calgary to see Tommy White's all star card featuring Wine-Lenhardt "go," and were very much disappointed with the showing of the much bally-hooed Wine. Well, we never did care for Wine. Thank you.

Of course you were at the Armistice ball. Everybody, or nearly everybody, was there, and those that were not have our sincere sympathy. The crowd was good; the music was splendid and last but not least, the eats were the best ever. Great credit is due the ladies who volunteered the heavy task of putting on the supper, and to them and the donors of the good things to eat the thanks and appreciation of the Legion is extended.

"So Maud was in a bright red frock at the Armistice ball?" "Some of her darling—some of her."

Uncle and Cousin have again disappeared from the usual haunts. We have a sneaking idea that they are doing missionary work up North among the Eskimos—our sympathy goes out to the poor Eskimos as they sure will get trimmed—and we don't mean maybe.

Nell—"Is my face dirty or is it my imagination?" Bell—"Your face isn't I don't know about your imagination!" Tex recommends Loganberry wine. We have tasted this stuff, but cannot testify as to its beneficial effects in the direction he indicates. Can you?

It fits any Kitchen

GENERAL ELECTRIC Refrigerator

SOME one of the General Electric models will fit into the kitchen space you have available in your home. These refrigerators, because of their simple compact mechanism, placed up on top, out of the way, require less floor space than other refrigerators yet have even greater food storage area.

Among the 250,000 users of General Electric Refrigerators not one of them has spent a dollar for repairs or service. These refrigerators are entirely automatic—remarkably quiet and never need to be oiled. An easily accessible temperature control governs the speed of freezing ice cubes or frozen desserts.

Come in and let us show you the new all-steel models that are absolutely warp-proof. You may purchase on the deferred payment plan.

FARMERS, SPEAK UP

The Farmers' Sun in commenting on the Canadian Club luncheon for Ramsay MacDonald in Toronto, observes that though organized labor flaunted itself at the head table along with commerce, law, finance, politics, church and press, yet agriculture was conspicuous by its absence. The United Secretary of the U.F.A. was indeed present in an obscure corner but entirely on his own initiative as a member of the club. The Sun continues: "No one suggests, of course, that agriculture languishes because its representatives are not invited to break bread with distinguished visitors at Canadian Club luncheons. The incident is mentioned here because it is typical of the studied disregard of agriculture on public occasions as in public affairs. For this the farmer is himself to blame. So long as he is content to take a back seat, so long will the community accept him at his own valuation. Even the politicians, who used to flatter him, at least around election time, have ceased to pay him compliments. Instead, they talk about what they propose to do for him, much in the same way that the talk of what they propose to do for the indigent aged, underprivileged children and those of weak intellect.

"MY TOWN" WILL GROW

Mr. R. W. Fisher, editor of the Wallawalla Union says: THAT most every town just happened at the start. THAT its growth depended on faith. THAT when a man has faith in a town he is proud of it. THAT when a man is proud of his town he is proud of his community, his estate, his nation. THAT when he is proud of his town he will fight for it, just as he will fight for other things he considers as his. THAT one of the biggest assets is the man who says it is "My town." THAT when you get a whole group to look upon it as "My town" you cannot stop the growth of that town, for other folks want to cast their lots with a place of that sort. The sooner it becomes "My town" to all the people, the sooner it will grow.

Legal difficulties in the way of the purchase of the Prince of Wales of a section of school lands in Alberta as part of the E. P. ranch have been set aside as result of an order-in-council officially published in this week's Canada Gazette. Under the Dominion Lands Act, lands set aside as "school lands," may not be disposed of without approval by the minister of interior and unless Dominion lands of equal value be set aside in lieu thereof. These formalities have been taken care of, according to the order-in-council, and no difficulty now re-

MANY SIDED PROBLEM

Speaking of immigration, a very live subject at present, it is advanced in argument, that every arrival of a new inhabitant introduces an element of competition with those already located in the country. Increased population means increased competition, which might result in decreased wages, or, in case of the farmers, in a drop in the price of products through surplus supply.

The agricultural laborer has been encouraged to come to Canada, but, having arrived here, he is the victim of seasonal occupation. For months he may be unemployed. And it is the misfortune of his lot that he has no trade union to fight his cause, no affiliation to help him. He enters the country easily, but remains under a handicap. If however, he can adapt himself to other occupations through slack months, he has his chance to succeed.

The faster our export markets expand, the greater the quantity of products required, and the need for more farmers. The expansion of industry demands more labor. The situation is interwoven, but before more immigrants are brought in, there should be reasonable security that all men may find occupation for at least nine months of the year.

NEEDFUL CUSING

The town of Győr, in Hungary, is a very good town, having passed a whole string of morality laws which the citizens must observe, one of which is: "Thou shalt not swear."

The law seems to have worked pretty well. But there comes a time when a rule is broken, and it has come to a builders' foreman, who has asked for a special dispensation with regard to swearing.

The foreman has to get work done within contract time, and his firm has had to pay damages more than once because the men have fallen down on the job.

The foreman's point is that it is useless for him to go to the men and say: "Would you mind putting a little more energy into your task, gentlemen?" because the men don't pay any attention to his entreaties.

He says he can get the work done if he could only revert to the custom of the good old days and swear at the good and hard.

The moral of this experience may be distressing to many people. But it is a sad fact that a verbal lashing, couched in the vernacular of the quarter-deck, goes a long way toward jacking up a gang of men who are not putting the amount of pep into a job that they should do.

CANADA LEADING

The annual report of the Department of Trade and Commerce for the year 1928 indicates Canada's high standing in world trade.

In the production of newspaper paper, nickel, asbestos and cobalt, Canada leads the world, holds second place in the production of wheat, third in the output of lead and gold. In total world trade Canada stands fifth among the nations of the world. This is remarkable showing for a nation of 10,000,000 people among the highly populated and industrialized nations of the earth. It vindicates that prophetic saying of Sir Wilfred Laurier nearly 30 years ago, "The Twentieth century is Canada's."

RECIPE FOR YOUTH

An old man in New York says: "When you get old, eat half as much sleep twice as much, drink three times as much water, and laugh four times as much." When you come to think of it this is really excellent advice both for the mind and for the body, and especially the last part of it. To have laughter you must have the habit of looking at the best side of things, you must choose cheerful people as friends, and thus avoid the melancholy outlook which too many old people possess. But we might suggest that the young people could help the old to keep young by interesting them in all that they are doing, and thus keeping their minds occupied.—Petrolia Topic.

The highest price paid at the cattle sales at Calgary recently was \$225 for a single animal, a shorthorn bull.

OUR FUTURE WOES

Radio now enters into election contests to speed up action and spread the truth. The night before the Ontario election, Mr. Sinclair, Liberal leader, spoke at Oakville and was broadcasted. A little later, Canon Cody spoke at Orillia, replied to Mr. Sinclair and was broadcasted. Later still Mr. Sinclair again replied to Canon Cody by radio. This episode is the merest glimpse of the awful possibilities confronting us at election time.

CAKCLERS RESTING

There is a great dearth of fresh eggs in the cities and towns of Alberta, and great quantities of eggs are being withdrawn from storage to meet the scarcity of fresh eggs. Hens have been laying steadily since early spring well into the fall, and apparently they have all decided to quit at once. It is a wise bird that reserves her charms for November and December. She is much more highly esteemed at this time.

FATTENING TURKEYS

Christmas dinner tables will not lack for turkeys, judging by reports from different parts of the province. Turkeys raised in the open during the summer cannot stand close confinement during the fattening period and should therefore not be confined to pens. Confinement often results in the birds going off their feed and developing digestive troubles, sometimes in death. The proper time to commence fattening is four weeks before they are wanted for table use, which is usually in November and December. The young birds should be started feeding gradually. The feed should be composed of both mash and whole grain, the mash in the morning and at mid-day, and the whole grain at night. The mash is made up of equal parts of ground oats, barley meal, corn meal and wheat bran, and should be fed in a moist condition from clean "V"-shaped troughs. Whole corn is the best grain for fattening purposes and should be used for the evening meal. Never give them more than they will readily eat. Turkeys thrive best in the open and even in the fattening period should be allowed to roost out side, with protection, of course, from cold winds and rain.

LIBRARY GRANTS

There is a strong effort being made to persuade the government to renew the grant for rural school libraries. The grant was withdrawn some years ago, with the result that the school libraries have been falling into disrepair and in many cases have become almost non-existent. As a consequence also of this the teachers are often put to expense in purchasing some desirable book for supplementary or general reading.

MAN CAN'T SLEEP, GETS NERVOUS, HATES PEOPLE

"I could not sleep and got so nervous I hated everybody. Since taking Vinol, I can sleep 10 hours and feel full of pep all day." Julius Herder. For 20 years doctors have prescribed Vinol because it contains important mineral elements of iron, calcium and cod liver peptone. The very FIRST bottle brings sound sleep and a BIG appetite. Nervous worn-out people are surprised how QUICK Vinol gives new life and pep! Tastes delicious! Errett King, Druggist, Vulcan.

Good Blue Ribbon Tea

Only choice leaves grown at high altitudes go into the blending of Blue Ribbon Tea. That is why its flavour is so uniformly excellent. Insist upon getting it from your grocer—refuse substitutes of inferior quality.

Stocks and Bonds

We cannot stress too strongly the fact that present bond prices are attractive. The recent large reductions in brokers' loans, together with the adjustment of the New York Reserve discount rate from 6% to 5%, and the reduction of a 4% to a 6% level in the London rate, undoubtedly means an immediate outlook for a healthy bond market. There seems to be little doubt but that the bond market will, as days go by, continue more active and reach higher levels.

Published in the interests
of the People of Vulcan
and the Farms and the
Farmers of the District.
J. T. WILLARD, Editor.

McCormick-Deering
Engines are built in 14, 16,
18 and 20-h.p. sizes. There
is a place for one or two
of these engines at almost
every farm in this com-
munity. Why work hard
over chores that power
can do easily and econ-
omically?

One of the first things
to catch your eye when
you open the Pullman
window is a cinder.

Communism is a pro-
fession and some men
make a living at it. That
is why it is always with us.

TRY THIS
To prevent cows from
kicking take a quarter-in-
ch rope and tie it tightly ar-
ound the cow's body, plac-
ing it just in front of the
cow's udder. This will aid
in breaking heifers and
will subdue the worst kic-
ers.

IN LIGHTER VEIN
Sergeant: "What is the
charge officer?"
"Fragrancy, sir, he's
been drinking perfume."

Teacher: You should not
say "Bee's Knees" that's
slang.
"Izzy: "But my fadder-he
says Beezness is rotten,
and he otto know."

"This restaurant sure is
cheap." "Howzat?"
"I got coffee, doughnuts
and an overcoat for 15c."

Whether you want an
electric drive, an engine
drive, or an elbow drive
we can supply you with
a McCormick-Deering
Ball-Bearing Cream Sep-
arator that will fit your
needs.

To preserve left-over
paint melt a little paraffin
and pour over the top as
you would on jelly glasses.
The paint will then stay
soft and fresh.

The only job that is
really an awful pain is
that of a window washer.

LOST FLIERS SAFE

On November 4, the word was flashed
over the world, that the long lost
McAlpine party is safe amongst the
Eskimos on the fringe of the Arctic
circle.

For six weeks a score or more of
anxious fliers have been scouring the
warren lands in vain hope of catching
some glimpse of the missing party.
But it was left to a young boy, J. Mc-
Alpine, manipulating an amateurish
radio set, to flash the news from Cam-
bridge Bay. "McAlpine and party
found, all well. Located Cambridge
Bay."

These words were picked out of the
air by a steamer frozen in at King
William Island off the north shore of
Canada. The message was passed on
and at Churchill, the report was
snatched, and broadcasted persistently
and repeatedly. Simultaneously it
was picked up at Regina, Saskatoon
and Ottawa, and though little
more than the original meagre nine
words is known as yet, details will
shortly be forthcoming.

Conjecture leads explorers to sup-
pose that the pilots became bewil-
dered after rising over the fog-reiled
land on their 450 mile flight over the
barrens from Baker Lake to Bathurst
Island. Instead of going west, they
went north toward Melbourn Island
and it is supposed that the party was
guided to Cambridge Bay Trading
post by Eskimos last Sunday.

The machines of the party are safe
at Melbourn Island, and one or two
ski-fitted craft can carry fuel the
necessary 300 miles to the halted ma-
chines.

Plans are now developing at Winni-
peg to complete the rescue and restore
the eight men of the party to their
families. In the party are: Col. Mc-
Alpine, president of the Dominion Ex-
plorers; Pilot C. A. Thompson, West-
ern Canada Airways; Pilot McMillan,
Edmonton, Dominion Explorers; Ma-
jor Baker, radio operator, St. Cathar-
ines; Boardway, geologist, Winnipeg;
Peace, of Toronto, editor Northern
Miner; Alex. Milne, Winnipeg, and
Goodwin, Hamilton, mechanic.

The northern party are living high
as the guests of the Hudson Bay
Company and Canalska Trading Co.
at Cambridge Bay.

GUESTS OF PRINCE

Holders of Victoria Cross Will At-
tend Empire Dinner, Nov. 9

The Canadian holders of the Victo-
ria Cross are now in London to be
in readiness for the dinner tendered
by the British Legion of ex-service
men and at which they will meet
the Prince of Wales. They were all
tendered a warm welcome by Mr. Lis-
ter the national vice president of the
British Legion.

The Prince of Wales is personally
supervising the arrangements for the
dinner which will be held in the par-
liament building on the night of Sat-
urday, November 9, two nights before
Armistice Day.

The dishes on the menu approved
by the Prince are of all-British pro-
ducts. It will be a simple dinner of
five courses, soup, fish, a joint of beef
poultry, sweets and Empire fruit. The
cigars and cigarettes will be of British
make.

The liquors will include champagne
red and white wines, and whiskey, all
from Empire sources.

The Prince will receive every guest
personally at the entrance to the Roy-
al Gallery of the House of Lords.
From 350 to 400 guests will attend
and there will be a staff of between
80 and 90 waiters, most of them ex-
service men wearing decorations.

The tables will be decorated with
Flanders poppies and music will be
supplied by the band of His Majesty's
Grenadier Guards.

LEARNING SUPPLIED

Last year the Extension Depart-
ment of Alberta University, in aug-
mented a new method of bringing
knowledge to anyone who so desired.
They started a library of photo-
graph records of the best language
has to offer in science, literature,
history. A continuity in the records
is furnished depending on whatever
line may be chosen. These records
were such an excellent reception last
year, and were used so readily and
consistently by students all over the
country that it has been decided this
year to increase the library by a con-
siderably greater number of records.

BLESSED BE GAS

Nineteen thousand customers in
Calgary, Lethbridge, Taber, Macleod,
Granum, Claresholm, Staveland, Park-
land, Nanton, High River and Oko-
toks depend on the Canadian West-
ern Natural Gas Company. Turner
Valley gas enters into 95 per cent of
the homes of Calgary and into a
great majority of the homes in the
smaller towns. Through southern Al-
berta people are fed and warmed by
the power of Turner gas, and at rea-
sonable cost.

The Company is indefatigable in
its efforts to serve the public and is
steadily extending its service, with
hope of considerable new develop-
ment next year.

Approximately 250,000,000 cubic
feet daily is obtained from the Valley
and in addition the flow from the gas
fields of Bow Island is in reserve for
any sudden demand.

TOOK LOUIS RIEL

Old Time Plainsman Who Captured
Riel, Not Eligible for Pension

There are many unusual cases com-
ing up before the Old Age Pension
Board, to complicate the operations
of the Act. Sometimes the most de-
serving are not eligible under the pro-
visions of the Act. An instance is
that of Bob Armstrong, "the man
who captured Louis Riel," who is in
his declining years an inmate of the
Salvation Army's Eventide Home at
Gleichen. He has lived in the North
West Territories since 1882, but unfor-
tunately for his eligibility he broke
his "continuous residence" by return-
ing to Oklahoma between the years
1905 to 1912. His period of citizen-
ship in the West has been from 1882
to 1905 and from 1912 to 1929—actu-
ally 40 years. But the continuous
residence clause, calls for 20 years,
and his last stretch in this country
has been only 17 years, with three
years to go before eligibility.

If ever a man deserved recognition
from the West, it would surely be
this old plainsman who not only cap-
tured Louis Riel, but in other ways
contributed to the advancement of the
country. Yet he lives on the charity
of the Salvation Army.

Chairman Alex. Roks of the Pen-
sions Board suggests that some sort
of compassionate fund would be use-
ful to meet just such cases, when a
technicality bars a thoroughly deserv-
ing person.

BACON GOOD

Canadian Bacon Has Established
Reputation Abroad

"Canadian bacon is now quite equal
in quality to the best Danish," is the
report of the economic committee of
the Empire Marketing Board. "In
addition, British dealers inform us
that in the last few years they are
unable to obtain sufficient quantities
of Canadian bacon to meet the re-
quirements of regular customers. Can-
adian bacon has now established a
good reputation for uniformity,
which had been considered its great-
est weakness."

The type of Wiltshire cut side ba-
con produced in Canada is well stan-
dardized and suitable to United King-
dom demand.

The persistence of farmers in pro-
ducing a steadily improving type of
bacon hog has now finally broken
down the prejudice existing against
this product, both during and after
the war.

The vote on the covered rink by
law at Gleichen was defeated. The
vote stood 39 against and 35 for.

Nearly 400 miles of Alberta high-
ways have been under construction
this season and are nearly all com-
pleted.

Youngsters will probably pass
along the news that a New York fac-
tor dropped dead while spanking his
son.

The old U.F.A. hall erected years
ago before Milo was thought of has
been purchased by the Oddfellows of
Milo and the building is being moved
to the village where it will serve
many useful purposes.

BRIGHT OUTLOOK

In spite of the experience of the
past few days, and also of what has
happened in other parts of the world
on the Stock Exchanges, we feel con-
fident that there will be no room in
Alberta for anything but optimism so
far as the oil industry is concerned.
No matter what may be the economic
upheaval, there is only one verdict—
and that is to the effect that the oil
industry in Western Canada is still
booming and in the best condition. The
outlook is as bright as it can be, and
with the second issue of our paper,
which we have endeavored to make
bigger and better, we advise every-
one concerned to stand firm. The
black days, we feel sure, are over
and the sun is rising once more on
the horizon of the oil market.—Oil
Review.

SELLERS OF SEALS

Christmas Seals Will be Sold for
Benefit of Little Crippled Children

This month there has come into the
head-office of the Red Cross Society
in Edmonton the annual shipment of
Xmas Seals to be sold for the benefit
of the little crippled children in hos-
pital under the Junior Red Cross in
Calgary and Edmonton.

It is a stupendous task getting rid
of such a large quantity and would be
well high impossible were it not for
the splendid band of eager young
salesmen and salesladies who make it
their especial pride and privilege to
merchandise these attractive stamps.

When every Red Cross Junior mem-
ber begins business as a seller of
seals he puts himself in touch with a
great united effort that extends from
coast to coast in every province of
Canada where there are Juniors work-
ing to keep their pledge of service to
the sick.

Alberta Juniors have long been
famous for their remarkable efforts
at Christmas time, or rather earlier
than that, for it is necessary that
seals be sold for parcels and letters
that are going on their errands of
goodwill across the seas to the Moth-
erland or to other parts of the world.
It is an easy matter for reader to de-
cide that in so far as he is able (and
surely all can do this small courtesy)
he will patronize the little merchants
who are earnestly trying to dispose of
packages of seals.

A little imagination helps the pur-
chaser in the pleasant thought that
his seal money, though small in itself
is part of a great and worthy effort
made by the children of the province
to assist those who are so unfortun-
ate as to be patients in hospital, and
who, thanks to Junior Red Cross, are
getting the chance they need to be
made well and whole.

The Valley has smashed all pre-
vious records in October production,
running 102,166 barrels in October.
The three Home wells have averaged
over 40,000 barrels, Associated pro-
duced 8,319 barrels; Foothills 1 show-
ed 3,990 barrels of oil, 702 barrels of
this being naphtha; two new wells,
British Dominion 2 and Widney con-
tributed to Imperial wealth, the Wid-
ney giving 4,781 barrels; Okalta No. 2
produced 8,855 barrels.

Freed Radio

Now FREED RADIO offers the greatest

Took Soda 20 Years for Gas—Stops Now

"For 20 years I took soda for indigestion and stomach gas. One bottle of Adlerika brought me complete relief."—Mr. John B. Hardy.
Adlerika relieves gas and sour stomach at once. Acting on BOTH upper and lower bowel, it removes old waste matter you never thought was in your system. Let Adlerika give your stomach and bowels a HEAL cleaning and see how good you feel! Overcomes constipation.—Errett King, Druggist, Vulcan.

The annual delegates' meeting of the Alberta Wheat Pool will be held in Calgary commencing November 26. At this meeting the reports for the past financial year will be presented to the delegates and various matters of general policy despatched.

OIL PRODUCTION

List Deliveries to Imperial and Regal Refineries for October.

In the Turner Valley production is holding steady with the Royalite No. 4 back in production after being frozen over. Production for October reached 100,000 barrels and passed it despite the stoppage of production from the Royalite "Wonder" well.

The official report of deliveries to refineries follows:

Naphtha to Imperial	
Royalite No. 7	2,990
Royalite No. 8	5,221
Royalite No. 9	702
Royalite No. 13	128

Grand total, 102,466 barrels.

Previous Months

September 89,020

August 93,299

Homestead men celebrated Thanksgiving with the recovery of the lost

oil and cable which had held up operations for a time. This well is being

watched closely as it is reached the producing probabilities now. Drilling

resumed Tuesday evening.

East Crest 2 also gave thanks when

forty feet of new hole was registered

Monday night, eliminating likelihood

of future trouble. The well is now

3160 feet. East Crest 1 has been

standing in the line for a few weeks

and the process of drilling out cement

will start with new rotary equipment.

Sterling Pacific is drilling with rotary

rig at 4700 feet.

Encouraging oil and gas showings

have been made at the Mercury wells

and Sunlight 1.

Commonwealth Petroleum No. 1 is

in Dalhousie sands at about 4300 feet

and drilling steadily.

Southwest Petroleum struck an en-

couraging gas flow over the week end

Mercury 1 struck almost pure gas

oil recently. It is at a depth of 34-

65 feet, while Mercury 2 is 3663 feet.

Sunlight 1 is 4,441 feet, all working

steadily.

The McLeod situation is generally

much improved. McLeod 4 is making

about 150 barrels daily, and McLeod

1 is back on partial production? A

production test is being made on No.

1. An effort may be made to remove

the bit stuck at 1700 feet. Some

months ago it was giving 100 barrels

a day, and when it shut off produc-

tion it was producing 60 barrels.

The drill rods and bit have been

fished from Mayland 1 and drill rods

are being twisted near the top of the

hole, and the task of getting them

out is successfully completed. Work

will probably proceed now without

interruption. It is now about 323 ft.

in the line, and down 5764 feet. A

big burst of gas was struck at this

well some weeks ago.

IMPERIAL PROGRAM

"As far as a definite announcement

of any particular number of new

wells is concerned, I have none to

make. We are certainly going ahead

KIRKCALDY NEWS

Mrs. Kestra is a visitor in Hollendale for a few days.

The U. F. A. at Claresholm in session recently, condemned beer parlors in the community and ask that a plebiscite be submitted to the electorate for the abolition of beer parlors.

Mr. Lorne Maisiey who is attending the school is home for the week end.

Mr. A. J. Maisiey was a visitor in Nanton on Wednesday.

Mr. Robert Robbie has left for Edmonton where he will spend the winter.

Mr. and Mrs. Laurie and family were visiting in Namaka for a few days.

Mrs. Leslie Middleton is a visitor in Calgary for the past week.

Mrs. Patterson of Calgary was visiting for a few days with her sister-in-law, Mrs. Grant Mallory.

Mr. and Mrs. Peters who have been in Calgary the past week returned home on Saturday.

Mrs. A. J. Maisiey was given a surprise on Wednesday evening by a few of her friends in honor of her birthday. The evening was spent in playing bridge after which a dainty lunch was served. A pleasant evening was voted by all.

The Peppy Pals Girls' Club met at the home of Miss Marie Dunbar on Saturday, November 9th. The meeting opened by singing O Canada after which followed the Creed. Eight members were present. A long business session was then held. The roll call was "New ways of serving turkey" and some very good ones were given. The meeting then adjourned.

Miss Irene Snyder read a splendid paper on Armistice written by Mrs. Brown. A dainty lunch was served by the hostess. A pleasant afternoon was enjoyed by all. The next meeting will be held at the home of Mrs. A. W. Maisiey on Saturday, November 23rd.

DOCTOR SPEAKS OUT

Says Medical Revolution Threatens End of Private Practitioner

Unless the medical profession succeeds by itself in educating the public to a program of disease prevention, insurance companies, industrial concerns and even the state may step in and take over the control of health was the statement made by Dr. Gunn president of the University of Wisconsin, in convention at Chicago recently.

The savant predicted his assertions on statistics showing that the annual economic loss caused by preventable sickness and postoperative death amounted to 350 million dollars or \$1,800,000,000 annually.

"It is estimated that this loss could be cut to a point where, over and above the costs of prevention, a balance of something like one billion dollars could be left in the pockets of the working population and the industries," he said.

Instead of continuing only in an emergency capacity, Dr. Frank said, the medical profession must change the American mind so that the private doctor will be consulted at regular intervals in a sickness prevention program.

Our only hope of a healthier nation, unless we go bag and baggage to state medicine, lies with the unselfish doctor who will consciously reduce his income by giving sick patients advice that may keep them from falling sick again," the speaker said.

CANADA BOOK WEEK

In connection with the Canada Book Week which is observed this week very actively in cities throughout the Dominion, Sir Andrew Macphail, one of Canada's outstanding men of letters, has this observation to make, on the practice:

"A Book Week can do good; it may do harm. It can do good if it presents prominently the few books worthy of it if it puts forward with noisy assurance and without discrimination books whose only merit is that they are Canadian. There are books of both kinds in plenty.

"A literature that is meagerly national is of little value as literature. To prove that value, it must become part of the literature of the world. It is like cookery. A local dish may interest the curious; it will remain a local curiosity unless it is to be found upon the most fastidious tables.

REID HILL NEWS

We are glad to report Mr. Whitney is improving.

Born to Mr. and Mrs. Larson on November 5th, a son.

Born to Mr. and Mrs. L. Munson on October 27, a son.

The Reid Hill deer hunters have arrived home safely.

Miss Irene Bowie is visiting with her sister, Mrs. Stafford at Turner Valley.

Miss Ruth McKay who is attending school in Calgary, arrived home to spend her holidays with her parents.

The Reid Hill W. I. are holding a bazaar and sale of home cooking in Vulcan at the Union Sunday school rooms on Nov. 16th.

Miss M. Kirk of Marshall school is attending the teachers convention at High River this week.

The Reid Hill W. I. met at the home of Mrs. J. Munson on Thursday November 7 with 21 members and five visitors present. Meeting opened by reading of creed and roll call. A long business session was held after which the meeting adjourned. A dainty lunch was served by the hostess. The next meeting will be held at the home of Mrs. I. McKay on December 5th.

EASTWAY NEWS

Mr. Bond senior has gone to High River to visit relatives.

Mr. and Mrs. M. P. Marshall are visiting relatives in High River.

Mr. Ted Adams and Mr. Wm. Marwood expect to leave for the Old Country next week.

Mrs. W. McMullen entertained the W. I. on October 31st when a number of activities were discussed.

There is to be a whist party in the Eastway school, under the auspices of the W. I. tomorrow evening, November 15th. Everybody welcome.

Mrs. N. Johnson gave a very enjoyable party on the first of November in honor of Miss Olga and also Mr. James Wyatt. A variety of games were indulged in and the fun lasted into the early hours of the morning.

ELECTRIC POWER

The growth of the use of electrical

augmentation of the twenty-four hour service by the Calgary Power Co., when they took over, has been very considerable and promises a still further increase.

There is probably no one service which has done more to take the drudgery out of house work than has the service given by electrical energy.

The electric washer, the electric iron, toaster, percolator and vacuum cleaner, all have become more or less common in every home. Now comes the electrical refrigerator with its manifold uses and economical devices.

Town of Vulcan is particularly fortunate in having several places that carry all these different appliances and are ready at all times to explain their uses. Some people have not yet put in any of the different household electrical labor savers because of the fact that they are not sure of the cost of operation.

From figures we have been able to gather lately the cost in the average home for the use of the complete outfit, washer, vacuum cleaner, toaster, iron and percolator is something less than \$1 per month, and the cost of operating the refrigerator is estimated at approximately 2½ cents per hour, while in actual operation. From the above it is plain that the cost is not excessive and anyone who has not yet taken advantage of these labor saving devices is missing much and should at once investigate.

Every woman in the home is entitled all the labor saving appliances that can possibly be afforded.

FREE DEMONSTRATIONS

Free demonstration of baking will be conducted in this store daily from November 25th to November 30th by a domestic science expert, a member of the educational department of Standard Brands Limited (successors to E. W. Gillett Co., Ltd.) manufacturers of Magic Baking Powder. You are cordially invited to avail yourself of this opportunity to learn of modern methods in home baking.

Any questions you may care to ask about domestic science or household problems in general will be gladly answered. Cook books will be given away free of charge.—F. L. Simington & Co., Vulcan, Alta.
